SVG/FCM files		
Check measurements of combined multiple pieces before splitting apart.		
The following are the true-size measurements. You will need to add an inflation value (shadow/offset) before cutting the fabric for the applique. The satin stitch is 3mm wide, so I suggest starting at 1.4mm extra around each piece**.** Adjust as needed.		
	4x4	**5x7**
Banner	93.4 x 56.02mm 3.68 x 2.21”	139.18 x 83.48mm 5.48 x 3.29”
If the pieces do not come into your cutting software at true size, try the alternate file **Banner*_72**. Silhouette and Cricut seem to like it better.		

Combine with the Plane, part of the Up, Up, and Away Set. Stitch the plane first, then the banner/rope. *Personalize the banner with a name or monogram*.
